**DETAILED ACTION**

**Response to Amendment**

Claims 16, 20-27 are allowed.

Claims 1-15, 17-19, and 28-30 are cancelled.

In view of amendment, filed on 01/29/2008 following rejections are withdrawn from previous office action for the reason of record.

- Rejection of claims 16-27 and 29-31 under 103(a) as being unpatentable over Standley et al. (WO 01/86035) in view of Sato et al. (US 6,593,211)

***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Abstract has been amended to be a single paragraph.

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

The prior arts of record fail to teach or suggest a method of producing a silicon epitaxial wafer, as claimed in claim 16. The closest prior arts of record Standley et al (WO 01/86035) and Sato et al (US 6,593,211) fail to teach a method of producing a silicon epitaxial wafer comprising a hydrogen heat treatment step in which a silicon single crystal substrate mounted on a spot face of the susceptor within a reactor is subjected to heat treatment in a hydrogen atmosphere, and a vapor phase epitaxy step for epitaxially growing a silicon epitaxial layer after the hydrogen heat treatment step wherein the silicon single crystal substrate is separated from the susceptor during the hydrogen heat treatment step by allowing a lift pin which vertically moves the silicon single crystal substrate relative to the susceptor to support the silicon single crystal substrate, and also the silicon single crystal substrate is mounted on the spot face of the susceptor during the vapor phase epitaxy step; Further, the hydrogen heat treatment step is performed at a temperature lower than a vapor phase epitaxy temperature of the silicon epitaxial layer step. Therefore, claims 16 and 20-27 deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
